

Transporting your Precious Samples

Through your research journey, we're dedicated to delivering your science

UK Biocentre is a respected leader in sample management, high-capacity bioprocessing, and storage. Established by UK Biobank in 2011, we're a not-for profit organisation that supports and facilitates large-scale biomedical, pharmaceutical, and clinical research studies. We enable life-changing research in the academic, pharmaceutical and biotech communities.

We offer solutions from sample processing and analysis to genomics and long-term sample cold storage. From the outset, we've valued our role as essential collaborators in the scientific process, providing reliable, high-quality services that help researchers make critical advancements in their fields. This drives our passion for delivering unparalleled services, using state of the art technology, and adhering to the highest compliance and accreditation standards.

We pride ourselves on nurturing relationships with our partners and, by leveraging dedicated automation and sophisticated software systems, we achieve consistent high-throughput sample processing and tracking. This commitment not only delivers exceptional value for UK academic and medical research but also provides the logistical backbone that guarantees customers and partners seamlessly achieve their study objectives.

UK Biocentre is committed to consistently driving quality and innovation. Our heritage, deeply rooted in our dedication to advancing science, combined with our quality certifications and accreditation, has cemented our position as a respected leading provider of services to life sciences across academia and industry.

2 sites

Our main facility is in Milton Keynes with a backup storage facility in Oxford

>70,000 sq foot

Our facility in Milton Keynes is used for the management, processing and analysis of biological samples.

35M samples

We offer automated and manual storage at -80°C and -196°C

OUR SAMPLE TRANSPORTATION SOLUTIONS

We take the utmost care of your samples throughout their whole journey.

Transport of ambient and frozen samples to and out of our biorepository requires careful management and monitoring. We can arrange the shipment of samples through our own courier **BioDrive** or through our extensive network of high-quality sample transportation partners, whilst ensuring that sample and data integrity is maintained to the highest standards throughout.

To find out more about transporting your samples please contact sales@ukbiocentre.com for an initial consultation and a quote.
